

# Retail Series R100

A leading provider of cash management solutions for the retail, food service and financial industries, Tellermate Group has more than 250,000 systems in use worldwide and counts some £2 billion pounds of notes and coins per day.

Tellermate's TY+ Retail Series sets the standard for best practice cash management, maximising productivity and increasing cash management efficiency. The TY+ Retail Series offers simple cash reconciliation functions for coins and notes.

TY+ gives you the power and flexibility to monitor and manage cash more efficiently. TY+ dramatically speeds till, float, safe and back office reconciliation. In a single count, TY+ verifies the right totals for every denomination throughout your retail store estate.

## TY+ R100 benefits

- Count a till and prepare a float in one operation in under one minute
- Count information can be reviewed quickly by denomination
- Reduce discrepancies and speed reconciliation
- Improve accuracy and secure cash revenues
- Conduct spot checks, audits and skims
- Dramatically speed cash management
- Release valuable management time
- Count 2 currencies simultaneously
- Easy, fast and efficient counting
- Virtually silent operation
